Any letters regarding the claim should be sent to us, unanswered without delay. You should not become involved in correspondence with the other person – you must leave us to deal with the matter on your behalf.

Insurance Act 2015

This policy is compliant with the principles of the Insurance Act 2015 law reforms. It also incorporates an 'opt out' which aims to promote good customer outcomes. We have opted-out of the 'proportionate reduction of claim remedy' available to insurers under the Act. This means that in cases of non-disclosure or misrepresentation which are neither deliberate nor reckless, if we would have charged an additional premium had we known the relevant facts, we will charge that premium and pay any claims in full rather than reducing claims payments in proportion to the amount of premium that would have been charged.

We believe that our 'additional premium approach' should, in most situations, be more favourable to our customers when compared to the proportionate reduction of claim remedy. Our additional premium approach does not affect our right to apply the other remedies available under the Act for non-disclosure or misrepresentation.

Handy hints

We have included some practical advice to help you avoid some of the more common accidents and events which occur.

Fire prevention

Over half of all fires in domestic premises start in the kitchen, so take special care when cooking with hot oil or fat and never leave chip pans unattended.

Fit smoke detectors in all rooms (special detectors are available for the kitchen) and test them on a regular basis to ensure that the batteries are working.

Check electrical equipment and follow the manufacturer's instructions in making sure that the correct fuses are used and circuits are not overloaded

Make sure that cigarettes and cigars are always properly extinguished.

Water damage

Find out where the stopcock is and make sure that you can turn it on and off. Lag exposed water pipes and tanks in the roof area, but, remember not to use insulation material under the water tank as this may cause water in the tank to freeze.

If pipes freeze, despite your precautions, thaw them out slowly using hot water bottles; never use a blowlamp.

Holidays and other unoccupancy

You are expected to take reasonable precautions to safeguard your premises especially when it is unoccupied or you are away. These should include not only securing doors and windows, but reducing the risk of pipework freezing by either turning off the water system and draining it down, or by maintaining low level heating, particularly overnight.

Trees

Structural damage to buildings caused by trees and shrubs is on the increase.

Do seek advice on safe planting distances before planting trees and shrubs in your garden and ensure that they are pruned regularly.
